Correction: Alpine Botany
<https://doi.org/10.1007/s00035-025-00333-3>

Panels B and D was missing from this article; the figure should have appeared as shown below.

Incorrect version:

Fig. 1 A Map showing the sampling sites of *C. alpina* subsp. *alpina* across its European range as well as the sampled *C. alpina* subsp. *alpina* population. B Distribution of *Clematis alpina* subsp. *alpina* in the Prealps, corresponding in panel C to the red rectangle. Locations obtained from *Infoclima* and confirmed are represented by a circle, those not confirmed by a cross and the newly discovered sites by a star—map by *map.geo.admin.ch* Geographical distribution of *C. alpina* subsp. *alpina* obtained consulting GBIF occurrence data, iNaturalist and literature (purple area) with populations analyzed in this study represented as pie charts colored according to FastStructure results and size according to number of sampled individuals. D FastStructure results based on the genetic data set with $K=4$. The colors indicate different clusters distribution for each individual represented by vertical bars, the y axis showing the Q-value. Abbreviations for populations grouping and populations name are presented respectively on the top and bottom of the chart. See Table 1 for population abbreviations
