

## Correction

# Correction: Sexual Dimorphism of Staminate- and Pistillate-Phase Flowers of *Saponaria officinalis* (Bouncing Bet) Affects Pollinator Behavior and Seed Set

The PLOS ONE Staff

The formula for “Pinkness Index” in the “Correlation between Reflectance and Anthocyanin Concentration” section of the Materials and Methods is incorrectly displayed. The correct formula, provided by the Authors, is shown below.

$$PI = 1 - \frac{\overline{\%R_{540-575nm}}}{\overline{\%R_{455-480nm \text{ and } 650-700nm}}}$$
