

RETRACTION NOTE

Open Access

Retraction Note: Preclinical studies of toxicity and anti-cholangiocarcinoma activity of the standardized capsule formulation of *atractylodes lancea* (Thunb.) DC

Tullayakorn Plengsuriyakarn^{1,2}, Kanawut Kotawong¹, Juntra Karbwang³ and Kesara Na-Bangchang^{1,2,3*}

This article has been retracted. Please see the Retraction Notice for more detail: <https://doi.org/10.1186/s12906-023-03992-z>

Retraction Note: BMC Complementary Medicine and Therapies s23, 186 (2023)

<https://doi.org/10.1186/s12906-023-03992-z>

The Editor has retracted this article. After publication, concerns were raised regarding highly similar images within the article. Specifically:

- Fig. 1, Thymus (1000) and Fig. 2 Thymus (1000) appear to be highly similar.
- Fig. 1, Brain (1000) and Fig. 2 Brain (1000) appear to be highly similar.
- Fig. 4A, CMC-AL (medium dose) and CMC-AL (low dose) appear to partially overlap.

The authors have stated that the images were included by error but were unable to provide a sufficient response to the concerns raised, nor verifiable original images. Therefore, the Editor no longer has confidence in the presented data.

Tullayakorn Plengsuriyakarn, Kanawut Kotawong and Kesara Na-Bangchang disagree with this retraction. Juntra Karbwang did not respond to correspondence from the Publisher about this retraction notice.
