

THREE PHOTOGRAPHS OF ALPINE PLANTS

By Colin Todd.

Above: *Raoulia grandiflora* and *Hectorella caespitosa,* 6000 feet, Mt. Earnslaw (× 2½).

Over: *Ourisia glandulosa,* 4500 feet, Kakanui Range, and *Myosotis pulvinatis,* 6000 feet, Richardson Range (both × 2½).

(*Editor's note*: Shortly after these photographs had been sent to the Bulletin, Colin Todd met with a fatal accident.)
