Fungi selecti exsiccati ex Herbario Universitatis Halensis – nos. 211–220

Uwe BRAUN

Abstract: Braun, U. 2014: Fungi selecti exsiccati ex Herbario Universitatis Halensis – nos. 211–220. Schlechtendalia **28**: 35–37.

The labels of a new decade (decas 21, nos. 211–220) of «Fungi selecti exsiccati ex Herbario Universitatis Halensis», an exsiccata distributed by the herbarium of the Institute of Biology, Department of Geobotany and Botanical Garden, Martin Luther University Halle (HAL), are listed.

Zusammenfassung: Braun, U. 2014: Fungi selecti exsiccati ex Herbario Universitatis Halensis – Nr. 211–220. Schlechtendalia **28**: 35–37.

Die Etiketten einer neuen Ausgaben (Decas 21, Nr. 211–220) von «Fungi selecti exsiccati ex Herbario Universitatis Halensis», ein Exsiccatenwerk herausgegeben vom Herbarium des Instituts für Biologie, Bereich Geobotanik und Botanischer Garten, der Martin-Luther-Universität Halle (HAL), werden aufgelistet.

Key words: HAL, exsiccata, fungi.

Published online 28 Oct. 2014.

«Fungi selecti exsiccati ex Herbario Universitatis Halensis» is an exsiccata distributed by the herbarium of the Institute of Biology, Department of Geobotany and Botanical Garden, Martin Luther University Halle (Germany), which is dedicated to non-lichenized fungi. Although it is not confined to selected fungal groups, special emphasis is put on microfungi in general and phytoparasitic micromycetes in particular, and the taxonomic groups of fungi which are subjects of scientific examinations at Halle will, of course, be reflected in this series of exsiccatae. It will not be issued in traditional fascicles of 20, 25 or 50 numbers, but in sets of 10 exsiccatae (decas), each number comprising 10 duplicates, which are dispensed on an exchange basis to selected herbaria (no. 211–220 to BPI, BRIP, GZU, HMAS, K, KR, KUS, LE, M, PDD; an additional complete set is deposited at HAL – abbreviations according to "Index Herbariorum").
