Hungarian Natural History Museum
Budapest, 2007

The front cover picture is a line drawing of *Iris hungarica* W. et K. 1807 published in *Descriptiones et icones plantarum rariorum Hungariae* (Vol. III, p. 226, 1812). Today it is considered as a subspecies of *Iris aphylla* L. It is characteristic member of forest-steppe in NE Hungary (Zemplén Mts, Szendrőlád, Nyírség). It also occurs in Romania, Slovakia and Ukraine.
