Correction: European Journal of Forest Research
<https://doi.org/10.1007/s10342-024-01693-x>

In Table 2 of this article, the data in the bottom half of the ‘Predictors’ column (pre_2015, etc.) is skewed towards the ‘Total width’ column, which further skews the next column, and so on up until the last column, distorting the entire table. The ‘Marginal / Conditional R²’ values are also skewed to the right, and are not properly situated under their respective column titles. All Tables Columns/rows alignment has been corrected.

The original article has been corrected.
