Correction to: Biodiversity and Conservation (2024) 33:257–280
<https://doi.org/10.1007/s10531-023-02746-0>

In the original publication under the section “Clone identification and microsatellite loci polymorphism assessment”, the sentence that reads as ‘MLGs with a.....’ should have read as ‘MLGs with a low probability of originating from distinct sexual events ($p_{\text{sexFIS}} < 0.01$) were considered clones and excluded from further analysis’. The original article has been corrected.
