

RETRACTED

The Commission has been established to investigate the causes of the accident and to recommend measures to prevent a recurrence. The Commission will also be responsible for monitoring the implementation of its recommendations. The Commission will report to the Council of Ministers and the Parliament on its findings and recommendations. The Commission will also be responsible for coordinating the work of the various bodies involved in the investigation and for ensuring that the necessary resources are available to carry out its work. The Commission will also be responsible for ensuring that the necessary information is made available to the public in a timely and accessible manner.

1.2.2. THE COMMISSION'S TASKS

The Commission will be responsible for investigating the causes of the accident and for recommending measures to prevent a recurrence. The Commission will also be responsible for monitoring the implementation of its recommendations. The Commission will report to the Council of Ministers and the Parliament on its findings and recommendations. The Commission will also be responsible for coordinating the work of the various bodies involved in the investigation and for ensuring that the necessary resources are available to carry out its work. The Commission will also be responsible for ensuring that the necessary information is made available to the public in a timely and accessible manner.

1.2.3. THE COMMISSION'S COMPOSITION

The Commission will be composed of representatives of the Council of Ministers, the Parliament, the Commission, and the Member States. The Commission will also include representatives of the various bodies involved in the investigation and of the public. The Commission will be chaired by a member of the Council of Ministers. The Commission will also have a secretariat. The Commission will be responsible for coordinating the work of the various bodies involved in the investigation and for ensuring that the necessary resources are available to carry out its work. The Commission will also be responsible for ensuring that the necessary information is made available to the public in a timely and accessible manner.
